ABORTION by the NUMBERS

The Devastating impact of current restrictions on abortion access.

0 is the number of Mississippi doctors who will perform an abortion on a rape victim despite the state having an 'exception'

24% of American women will have an abortion by age 45

49% of abortion patients live below the federal poverty level

40% of U.S. adults do not have enough in savings to pay for a $400 emergency expense, meaning many individuals may need to delay having an abortion until they can raise the necessary funds. (reported by Federal Reserve Board)

57% of abortions were among women of color

58% of women 13-44 live in a state hostile to abortion rights

59% of women obtaining abortions are already mothers

$500 is the cost of a 1st trimester abortion, before including practical costs such as transportation, childcare, lodging, food, and lost wages

More than
$2,000 is the cost of a second trimester abortion

14 is the number of years an Idaho professor could go to prison if they say something construed as "promoting" abortion.

15 is number of weeks into pregnancy Terry was when she found out her fetus hadn't developed at all above the neck. $2,000 is what she had to spend to travel to New Mexico for care because Texas law said she had to give birth to a baby without a head.
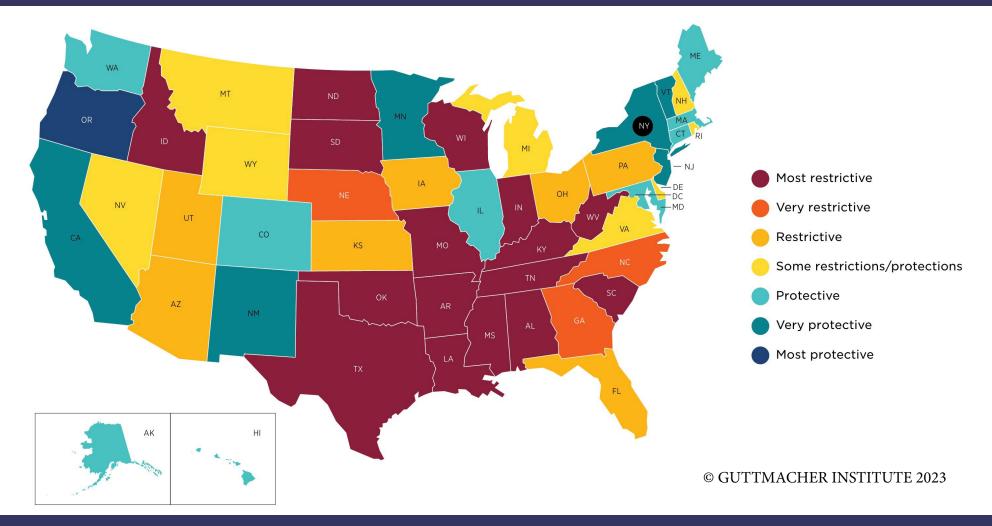

19 state Attorneys General want the ability to access the medical records of women who get out-of-state abortions.

40 million is the number of American women who would lose access to the safest form of medical abortion if mifepristone is banned.

Level of Abortion Restrictions by State

Huge sections of the US are abortion deserts, where women are unable to obtain essential healthcare unless they can travel long distances.

Legend:
- Most restrictive
- Very restrictive
- Restrictive
